RUMAH TENUN MAGELANG

RUMAH TENUN
MAGELANG

Rumahnya jasad alam Indonesia

We are a weaving house that produces woven products made from natural fibers. The natural fibers used are those that are abundant in Indonesia, such as fibers from pandan, water hyacinth, banana, ramie, and others. Our natural fiber woven products are exported to foreign countries and are highly sought after there.

The products we produce are designed and processed with the best quality and are worked on by skilled and trained workers, so as to satisfy the needs and desires of our customers.

The growing range of products from Rumah Tenun Magelang also opens up opportunities for us to empower the surrounding community. Currently, there are no fewer than 2,000 residents in the Rumah Tenun Magelang area, most of whom are women, who partner in the preparation of the product's materials.

Located at the foothills of Mount Sumbing in Magelang, Rumah Tenun Magelang offers a unique tourism experience.

Starting with a tour of our tropical fiber plant garden, we will introduce you to the plants whose fibers we use for weaving.

After exploring the plants, we will demonstrate how we extract fibers from them. You can also try your hand at processing the fibers or creating a "Fiber Palette" for weaving.

The next enjoyable experience is trying your hand at weaving these fibers into a product.

Following that, you will be treated to traditional Central Javanese cuisine, starting with Getuk as an appetizer and followed by a warm lunch with your friends as a complement to your visit.

LIVING

The living room is now more important than ever before. As the Pandemic situation makes us dwell more into our home. Nowadays, our living room has become one of our ways to express our interests and identity.

We believe that our hand woven cushion covers, sofa throws as well as table runners will bring an exotic and spiritual identity to the living room of our clients, the wanderlusts who reach for a touch of travel and wonder.
